

CALIFORNIA VOLUNTARY CARBON MARKET DISCLOSURE

The Carlyle Group Inc. (“Carlyle”) provides the following information related to Section 44475 of Division 26, Part 10 of the California Health and Safety Code added by the Voluntary Carbon Market Disclosures Act (California Assembly Bill (AB) 1305).

Voluntary Carbon Offset (“VCO”) Project Information (pursuant to AB 1305 Section 44475.1)

The table below summarizes information concerning VCOs purchased by Carlyle to offset certain Scope 1 and select Scope 3 (business travel) emissions for calendar year 2023.¹

All information regarding voluntary carbon offset projects was provided to us by our vendor, Anthesis, LLC.

Project Name	Offset Registry	Project ID	Selling Entity	Project Type	Project Location	Third-Party Verifier	Methodology
Envira Amazonia REDD+ Project	Verified Carbon Standard (VCS)	VCS 1382	Anthesis LLC	REDD+	Acre, Brazil	Aster Global Environmental Solutions Inc.	VM0007
BigCoast Forest Climate Initiative	Verified Carbon Standard (VCS)	VCS 3018	Anthesis LLC	Improved forest management (Carbon removal)	British Columbia, Canada	SCS Global Services	VM0012

Carlyle has not undertaken any independent third-party verification of the data and claims listed in the table above.

Information Regarding Certain Claims (pursuant to AB 1305 Section 44475.2)

Carlyle provides progress updates and methodology-related disclosures (in each case, to the extent relevant) regarding carbon neutrality, net zero related commitments and greenhouse gas emissions data in certain public documentation, including Carlyle’s [2024 ESG Report and 2024 TCFD Report](#). Unless otherwise stated, none of the data or claims have been independently verified.

Disclaimer

The information above is being provided in relation to the California Voluntary Carbon Market Disclosures Act and should not be read as constituting “material” information, as understood under the securities or any other laws or regulations of the U.S. or any other jurisdiction, or as they are used in the context of financial statements and financial reporting, or as used in other Carlyle reporting or statements. Further, the information included herein does not imply that Carlyle sets any greenhouse gas emissions-related goals, targets, intentions, or expectations, including with respect to net-zero targets and related timelines.

The information above is being provided for purposes of AB 1305 and by posting this information on its website, Carlyle is not conceding that any specific item is required to be disclosed or waiving any arguments

¹ See the Carlyle 2024 TCFD Report, which is incorporated in the Carlyle 2024 ESG Report (link [here](#)), for additional information.

about the interpretation of AB 1305. There is limited guidance on the application and enforcement of AB 1305 and it is uncertain how it will apply to entities in scope of AB 1305, including Carlyle.

The statements made herein are generally based on Carlyle's 2024 reporting for calendar year 2023. This information may be superseded or become irrelevant or inaccessible over time, and we assume no obligation to update any information or statements contained in this document as a result of new information, figures, events or otherwise, except as required by law.

Carlyle's approach to providing information in response to AB 1305 could change over time. Additional information may be available on this website.
